

# The role of the Sustainability Certification Schemes (SCS)

Leticia Millward

*Standards Manager*

# Sustainability Certification Scheme

# What is a Sustainability Certification Scheme?

- Ensures that certified goods and services are produced/conducted sustainably, according to defined standards
- Implements the CORSIA Eligible Fuels requirements

				
<b>CORSIA Eligibility Framework and Requirements for Sustainability Certification Schemes</b> Third Edition, March 2024	<b>CORSIA Approved Sustainability Certification Schemes*</b> Second Edition, June 2023	<b>CORSIA Sustainability Criteria for CORSIA Eligible Fuels**</b> Third Edition, November 2022	<b>CORSIA Default Life Cycle Emissions Values for CORSIA Eligible Fuels***</b> Fifth Edition, March 2024	<b>CORSIA Methodology for Calculating Actual Life Cycle Emissions Values</b> Fourth Edition, March 2024

# Sustainability standards

Set of principles, criteria and indicators to ensure sustainable production

Biodiversity  
conservation

Emission  
reduction

Social  
compliance

Traceability/  
chain of custody

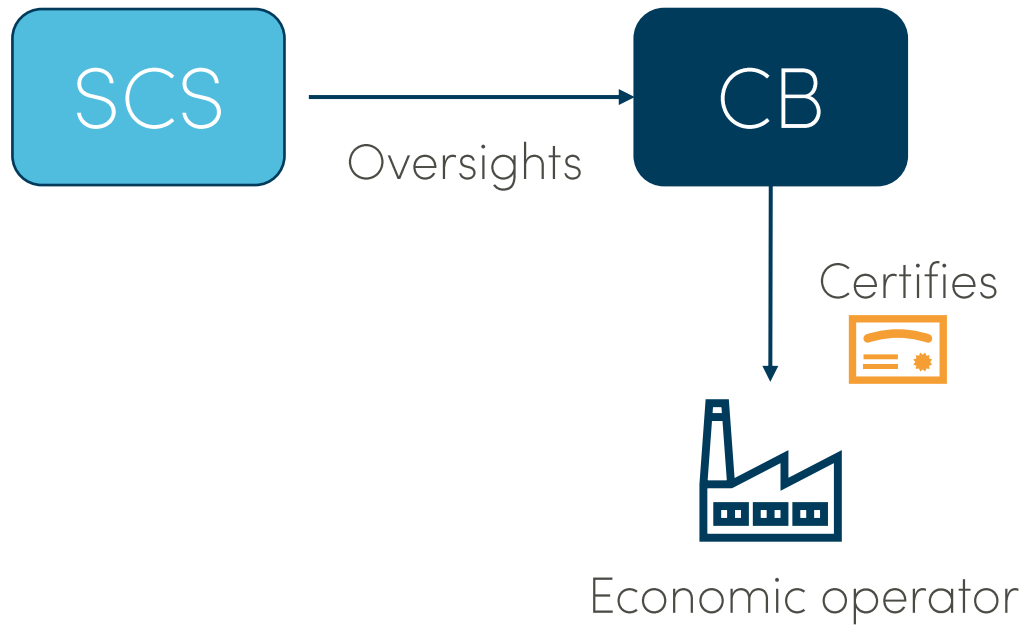

How  
compliance is  
verified

# What is Assurance?

The Assurance System  
establishes the rules to  
ensure accurate results  
from compliance  
assessments

# Role of Certification Body

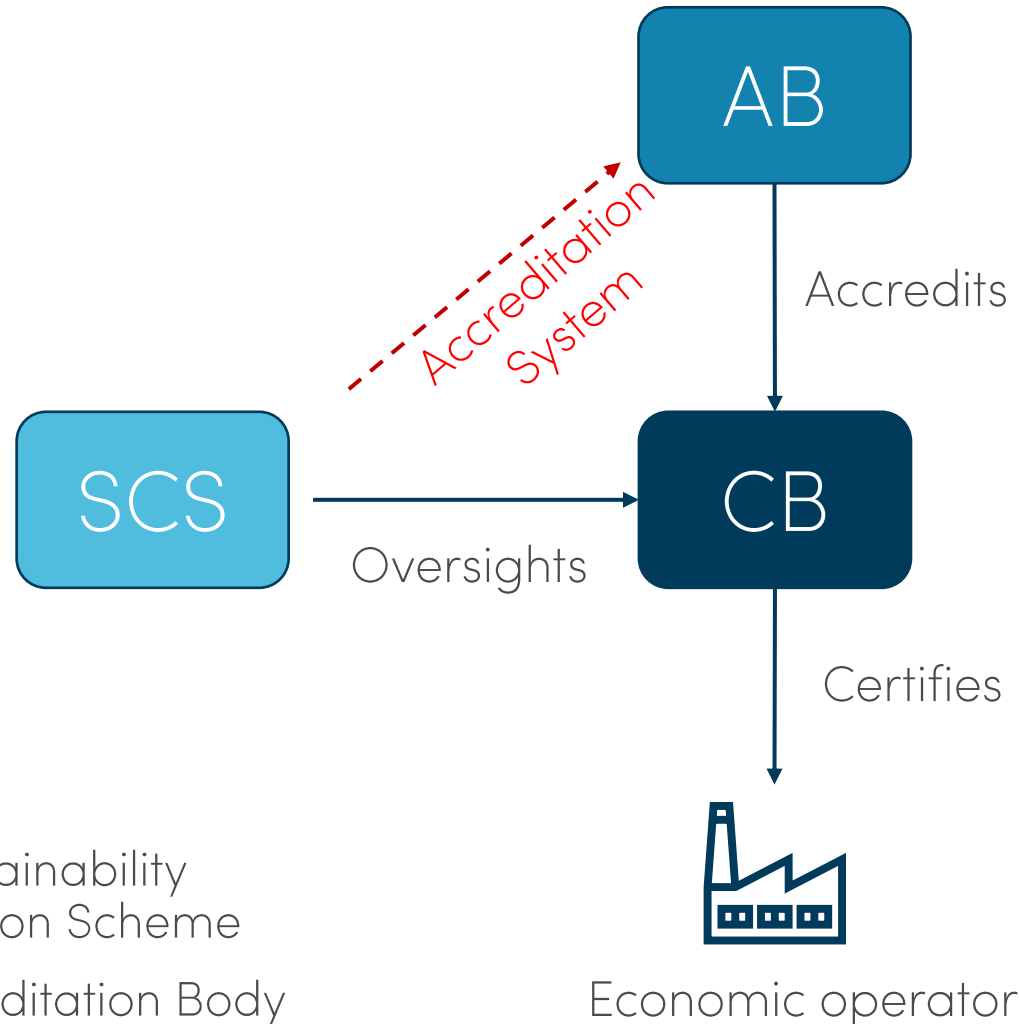

- SCS: Sustainability Certification Scheme
- CB: Certification Body

*Examples:*

# Role of Accreditation Body

- SCS: Sustainability Certification Scheme
- AB: Accreditation Body
- CB: Certification Body

## *Examples:*

- Argentina: OAA (Organismo Argentino de Acreditación)
- Brazil: General Coordination for Accreditation - CGCRE (Inmetro)
- Paraguay: ONA (Organismo Nacional de Acreditación)
- US: ANAB (ANSI National Accreditation Board )

Implementation

# Who must be certified?

## Example of a SAF supply chain from sugarcane

# Accelerating certified SAF

- Support from policy frameworks on sustainability themes such as deforestation/biodiversity and social compliance
- Stakeholder engagement
  - Collaboration and partnerships
  - Training economic operators on implementation
  - Education and information to other stakeholders
- Investment in production of biofuels from food production waste

Thank you
